Introduction

Assalamu'alaikum warahmatullohi wabarakaatuh

Bismillahirrohmaanirrohiim

Dear,
Parents/Guardians

With gratitude and joy, we welcome the parents and children to the Mutiara Harapan Islamic School. In this learning process, every child needs to adapt to certain aspects so they can have a smooth and successful learning experience. That is why we are organising this handbook, which contains valuable information for the parents and children. We hope the parents can gain some benefits from all the information in this handbook to follow all the school activities and important procedures, which will support the children to do the same thing.

If the parents have any questions regarding the learning process, they can contact the address and phone numbers which can be found in this handbook. Thank you for your attention and cooperation.

Wassalamu'alaikum warahmatullohi wabarakaatuh

Alhamdulillahirobbil'aalamiin

Regards,
Silvia Ramadhina, ST, M.Pd.
Preschool Principal

Our Founder Values

MHIS was established in 2005 by Bapak Reynalda Madjid and Ibu Ita Emilia Madjid with a vision to have an Islamic school that prepares Muslim students to be ready for the future, where they can cope with globalisation & international competition at their time.

The school is based on the belief that our students grow to be great examples of the following character: Good Islamic values, be open-minded, have confidence and the necessary skills to be global citizens.

School's role is to equip students with the necessary skills for the unknown future, and they always have the Islamic values with them so that they will rely on their true identity in the struggle and success.

Therefore, our vision is "To educate students rooted in Islamic values, exemplary character, and the skills to succeed in an ever-changing world."

Our Value Promise

All parents dream that their children would be more successful in their lives than they ever were. We believe school should be a place where the elements of a successful career and understanding how to contribute to society and the close ones in the family are strengthened. Student outcomes are our promise to parents and our students.

Our motto is "Quality is Ours".

We are proud of our roots. To become a successful citizen means that one knows where they come from. Therefore, we familiarise ourselves with all the aspects of our culture, community and society.

We prepare our students to have a strong identity and confidence to be good citizens with Islamic, cultural and national values. We promise to provide good knowledge of Islam. We are committed to following Islamic values and character in our everyday life. We love and are proud of our traditions. We use local wisdom whenever it is meaningful. Our students are open-minded, have confidence and the necessary skills to be global citizens. We are one big team, and our school is an active part of the surrounding community. Our school is friendly and has a supportive environment for students to get prepared and the necessary tools for a good life.

Our Mutiara Harapan Islamic School's five goals are :

1. Believe and obey to Allah Subhanahu wa ta'ala
2. Capable to lead
3. Capable to convey the ideas
4. Capable of using information technology
5. Capable to communicate both nationally and internationally

Based on the five goals, our school is committed to a Learner Profile with 7 attributes that best represent our Values in the Mutiara Harapan Islamic School. We believe these attributes can help individuals and groups become beneficial Muslims of local, national and global communities.

Our Learner profile:

Believe and Obey to Allah SWT

1. **Be Trustworthy** and speak the truth. Be honest to others and primarily honest to Allah swt. Change attitude and actions depending on company and circumstances–but with a sound reason, and in a "good" way. Uphold proper manners (*adab*) that are appropriate to the situation is from being true.
2. **Be Discipline,** because it is at the heart of any successful person. Be challenged with the nowadays situation that require good routines and well-planned life.
3. **Be Courteous** by showing caring, empathy, respect and accepting others who are different in their race, culture and even beliefs. Care, accept and play with friends, show tolerance and realize that they want to be respected, have their ideas heard, and receive fair treatment from them just as they wanted the same.

Capable to lead

4. **Be Responsible** for your own future by taking ownership of your own learning. Work well independently but also with others. Understand that actions have impacts on others and on the environment. Appreciate the importance of culture, context and community.

Capable to convey the ideas

5. **Be Resilient** to achieve targets that seem at first impossible to achieve and insist on completing them with pride of the outcome. Be able to communicate and defend views and opinions as well as respect those of others. In case of difficulties or opposition use advocacy (*tabligh*) to convey the ideas to concrete.

Capable in using information and technology

6. **Be Inquired**. Stay curious to learn new skills and are receptive to new ideas with new technology. Be a lifelong learner that embody a spirit of enquiry and have willingness to read

deeper situation (*iqra*).

Capable to communicate both nationally and internationally

7. **Be Confident** in working with information and ideas – your own and those of others. Express confidently and creatively in more than one language and in many ways. Be confident and secure in knowledge, unwilling to take things for granted and ready to take intellectual risks. Be keen to explore and evaluate ideas and arguments in a structured, critical and analytical way.

Our Core Principles

Vision :
"To educate students rooted in Islamic values, exemplary character, and the skills to succeed in an ever-changing world."

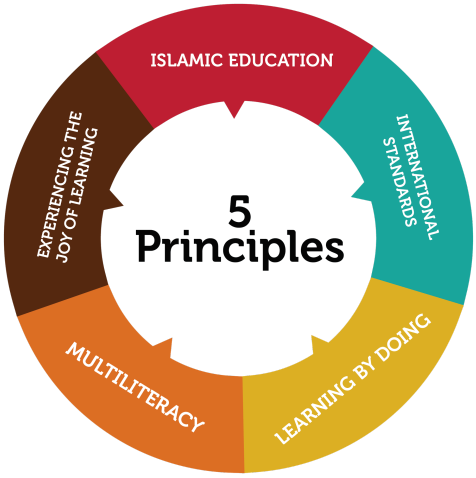

Missions:

1. To develop curricula and programs that integrate Islamic foundation, foster exemplary character, and equip students with the knowledge, skills, and mindset for continuous growth.
2. To empower teachers and staff to embody Islamic values, embrace lifelong learning, and pursue excellence that drives student success and growth.
3. To provide a safe and sustainable environment that supports students' evolving needs in character development, skills acquisition, and academic mastery.
4. To ensure effective operations that emphasise outstanding service and apply best practices.

“Mendidik siswa yang berlandaskan nilai-nilai Islam, memiliki karakter teladan, dan keterampilan untuk berhasil di dunia yang terus berkembang”

1. Mengembangkan kurikulum dan program yang mengintegrasikan prinsip-prinsip Islam, membina karakter teladan, serta membekali siswa dengan pengetahuan, keterampilan, dan pola pikir untuk pengembangan diri yang berkelanjutan.
2. Memberdayakan guru dan staf untuk menginternalisasi nilai-nilai Islam, menghayati pembelajaran sepanjang masa, dan mengejar keunggulan yang mendukung kesuksesan serta perkembangan siswa.
3. Menyediakan lingkungan yang aman dan kondusif untuk mendukung kebutuhan siswa dalam pengembangan karakter, keterampilan, dan penguasaan akademik.
4. Mengelola kegiatan operasional yang efektif dengan berfokus pada keunggulan pelayanan dan penerapan praktik terbaik.

To be able to keep our value promises, we follow **5 principles**:

Islamic Education
We want our children to learn how to be believers in, and obedient to, Allah SWT. Nurturing children with values of Quran and Hadith, not only as a concept but also application in daily and real life.

International Standards
We aim to prepare our children to be ready for the unknown future, where they can cope with globalization & international competition at their time

Learning by Doing
We believe that Learning by doing makes the children as the active actors. They should learn to set goals and to solve problems both independently and together with others.

Experiencing the Joy of Learning
Children develop their thinking and learning through meaningful experiences. Room must be left for experiencing wonder and joy of learning.

Multiliteracy
Language, physical elements and the use of different senses are essential for higher order thinking and learning skills.

Concept of learning

Our preschool is based on a conception of learning according to which children grow, develop and learn in interaction with other people and the immediate environment. The conception of learning is also based on a view of the child's active agency. Children are naturally curious and wish to learn new things and revise and repeat what they have learned. Learning is holistic and occurs

everywhere. It combines knowledge, skills, actions, emotions, sensory perceptions, bodily experiences and thinking. Among other things, learning occurs when children observe and examine their surroundings and as they imitate the actions of others. Children also learn by playing, moving, exploring, working on different assignments and expressing themselves as well as through activities based on arts.

In our preschool the previous experiences of children, their interests, and their competences are the starting point for learning. It is important that new knowledge and skills learned by children are connected to their developing competences as well as the world they experience and their cultural backgrounds. Children learn best when they are feeling well and secure. Positive emotional experiences and interactive relationships promote learning. The peer group and an experience of belonging to a group are key to the child's learning and participation. Children are entitled to the support and guidance of the personnel for their learning. Interesting, goal-oriented and suitably challenging activities inspire the children to learn more. Each child is entitled to gain experiences of success and joy in his or her actions and of himself or herself as a learner.

Play is significant for the learning of children of early childhood education and care age. It motivates the children and brings joy while allowing the children to learn many skills and acquire knowledge. In early childhood education and care, it is necessary to understand the intrinsic value of play for children as well as the pedagogical significance of play in learning and children's holistic growth and well-being.

Parents and community facilitates what is right and wrong and be a role model for it.

Our General Facilities

Our school is the second home of our children. It should be a safe place to practise homelike activities in close guidance of professional educators. Our facilities are rich in Islamic values and our team is committed to conducting experiential activities to feed the natural curiosity to learn of the child. The main guideline for all facilities is maximum safety and security. Not only physical but also mental.

We want our school to feel like a home to everyone.

- We all are responsible for the safety in our school
- Everyone is entitled to experience the Joy of learning
- We participate, involve and contribute actively to improve our surrounding community
- We cooperate and collaborate on national and international levels to spread, raise awareness and challenge our beliefs what great education is about.
- We keep learning and improving as a community.
- We have a desire to be better by benchmarking, cooperating and collaborating on a national and international level.
- We are all role models by our actions.

Prohibition on Accepting Gifts from Parents

To maintain integrity and professionalism as educators, all teachers and staff at MHIS are strictly prohibited from accepting any form of gifts from parents, whether given individually or to a group of teachers and staff. This policy aims to prevent gratification and ensure that every student is treated fairly and equally.

We are committed to upholding transparency and accountability within our educational environment, in accordance with Indonesian law and Islamic teachings, which prohibit giving and receiving gratuities.

We encourage all parents to help create a fair and ethical educational environment. We also hope that parents will understand and support this policy for the sake of raising an honest and morally upright future generation.

Safety and Health Awareness Training

MHIS is committed to creating a safe and healthy environment for all students and the school community. As part of this effort, we regularly conduct safety training sessions led by professionals in the field.

The objectives of this training are to:

- Increase students' and parents' awareness and knowledge of effective safety practices.
- Promote the importance of physical and mental health.
- Provide up-to-date information on emergency procedures and crisis management.

The training will be held every semester and will cover various topics, including but not limited to:

- First aid;

- Hygiene and sanitation;
- School safety;
- Mental and emotional well-being.

We invite all parents to actively participate in these training sessions, as collaboration between the school and families is essential in creating a safe and supportive learning environment.

Dress Code Etiquette for Parents

1. Parents, guardians, caregivers, and anyone accompanying students are expected to wear neat, modest, and appropriate clothing that covers the aurah while on MHIS school grounds.
2. Tight or transparent clothing is not allowed in the MHIS environment.

Counseling Services and Regular Safety Training

MHIS provides counseling services to help students address academic, social, emotional, and personal challenges. This support is aimed at fostering holistic development, enabling students to reach their full potential.

Additionally, MHIS conducts regular safety training sessions to equip students with essential knowledge and skills for their well-being. These training sessions cover topics such as first aid, hygiene and sanitation, school safety, and mental health awareness. By integrating counseling services with safety training, we ensure that students receive comprehensive support for their academic and personal growth.

Communication Between School and Parents

To ensure smooth and effective communication between the school and parents, we have established the following communication guidelines:

1. **Official Communication Channels**
    - All communication should be conducted via email during working hours and on school days.
    - Parents with concerns or questions can reach out to the **Homeroom Teacher** via email or WhatsApp.
2. **Handling Parent Concerns**

- The **Homeroom Teacher** serves as the primary contact and will address any concerns raised by parents.
- The teacher will coordinate with relevant school staff based on the nature and severity of the issue.

3. **Communication Through Class Coordinator**

    - Parents may also share feedback or concerns through the **Class Coordinator**.
    - The **Class Coordinator** will collaborate with **Ittihada** (Parent Association) to relay the information further.
    - If necessary, concerns will be escalated to the **Vice Chairperson** and then to the **Chairperson of Ittihada** for resolution.

By following this communication process, we aim to maintain efficiency and ensure that all concerns are addressed appropriately.

We aim to maintain smooth communication with parents by following the established communication flow. If parents have any questions or concerns, they should contact the **Homeroom Teacher** via email, who will then follow up accordingly.

Other communication channels, such as personal WhatsApp messages to teachers, the Vice Principal, or the Principal, are **not allowed**, except in urgent situations.

Parents and School Collaboration

We encourage parents to actively participate in school activities and community events to strengthen the partnership between home, school, and the entire **Mutiara Harapan Islamic School** community.

As part of the **Mutiara Harapan Islamic School** family, parental involvement in school activities and events plays a key role in creating a positive atmosphere that supports children's development.

We greatly appreciate the important role of parents in achieving our shared educational goals.

RESIGNATION

What is meant by resignation is that the child ends his status as a Preschool Mutiara Harapan Islamic School student because of the following reasons:

1. Move to another school
2. Quit school
3. Prolonged illness or passed away

For children who will transfer to another school, it is mandatory to:

1. The parent/guardian submits a written request letter to change schools to the principal by explaining the reason for dropping out from school and writing down the name of the school to be addressed.
2. Parents/Guardians complete of the administration of moving the area of Education and Culture Department office of the South Tangerang City (if needed)
3. Complete all administrative obligations (if any)
4. Returning the school's inventory (if any)

For children who drop out of school, it is mandatory to:

1. The parent / guardian submits a written request letter to drop out of school to the Principal and explain the reason for dropping out of school.
2. Carry out various things agreed between the Principal and Parents/Guardians.

SCHOOL FEES ADMINISTRATION

1. Administration of children's school fees is an obligation that must be fulfilled by the children, which can be in the form of payment of school fees, annual fees, school buses, extracurriculars, etc. through children's personal Virtual Accounts.
2. Book fees will be determined based on the information from the Publisher
3. Extracurricular costs according to the chosen extracurricular.
4. *School fee* amount must be paid every month on the 10th at the latest of the current month.
5. The late payment of the School fee in every month will make the children not be allowed to go to school. Notification will be delivered by official electronic mail through the parent's email by system.
6. *School Fee* will be adjusted according to the school policy and it will be a permanent decision.
7. Ittihada fees will be determined later by the Ittihada management and will be paid annually.
